

## Deer Resistant Plants

Please note that resistance is proportional to hunger. The hungrier the deer, the less picky they are about what they eat. Deer generally will not select plants that are sticky, or have rough, fuzzy, or fragrant leaves. The plants listed below are less desirable to deer.

### **Trees :**

Acer  
Betula  
Carpinus  
Catalpa  
Cercis canadensis  
Cornus  
Crataegus  
Fagus  
Ginkgo biloba  
Gleditsia t. inermis  
Gymnocladus dioica  
Larix  
Liquidambar  
Liriodendron  
Magnolia  
Metasequoia  
Nyssa sylvatica  
Ostrya  
Picea  
Platanus  
Quercus  
Robinia  
Salix  
Syringa reticulata  
Taxodium distichum  
Tilia  
Ulmus

### **Shrubs :**

Berberis  
Buxus  
Calycanthus floridus  
Caryopteris  
Chaenomeles  
Clethra  
Cotoneaster  
Cotinus  
Forsythia  
Hamamelis  
Hydrangea (some)  
Ilex glabra  
Juniperus  
Kerris japonica  
Ligustrum  
Lindera benzion  
Myrica pensylvanica  
Philadelphus  
Pieris japonica  
Potentilla  
Rhus aromatica  
Spirea  
Symphoricarpos  
Syringa  
Viburnum  
Weigela
